

OUR VALUES

TRAVEL FOR EVERYONE

We believe that traveling should be possible for everyone and at the same time can be made sustainable. Through open dialogue and the exchange of different perspectives, we want to create a platform that helps to make conscious choices and support environmentally friendly practices. Together, we want to bring about positive change in the travel industry and create an enriching travel experience for everyone.

TRAVEL FOR EVERYONE - Travel should be accessible to everyone, regardless of age, gender, physical ability, financial means or other limitations. Our festival offers a wide range of travel experiences that appeal to different interests, preferences and needs.

NEW GENERATION OF TRAVELERS - Our focus is not on a specific age group, but on people who are interested in new perspectives and opportunities in travel. Regardless of age, type of travel or target group, we want to appeal to travelers who are open to new experiences and want to explore the diversity of travel.

EXCHANGE AND CONSCIOUSNESS - We create space for open discussion and the exchange of different perspectives. We encourage travelers to make conscious decisions, choose environmentally friendly accommodation, support local suppliers and respect cultural traditions. Together we contribute to responsible travel.

SUSTAINABLE SOLUTIONS - We are committed to innovative approaches to reduce the environmental footprint and preserve the cultural integrity of destinations. Together we can develop the travel sector and promote sustainable choices that counteract the negative impacts of climate change and mass tourism.
